

# Principal Geotechnical Engineer

Geo-Logic Associates (GLA) is an employee-owned, multidisciplinary, geologic, geotechnical, hydrogeologic, civil, and environmental consulting firm. Our highly experienced professionals manage projects through 26 US office locations and an affiliate office in Peru. The firm was established in 1991 and has experienced sustained growth since then.

GLA is currently seeking a full-time Principal-level Geotechnical Engineer/Engineering Manager to lead a small group and provide support for geotechnical services associated with civil/site infrastructure, solid waste, mining, and environmental remediation projects. Projects may include geotechnical design for water and wastewater facilities, schools, highways and bridges, commercial development, solid waste management facilities, and mining facilities. This is a tremendous opportunity for the right person.

## Office Location: Morgan Hill, California

### Required Qualifications:

- Master's Degree in Geotechnical Engineering
- California P.E. license and G.E. certification
- Additional P.E. licenses in other jurisdictions a plus, or the ability to obtain licensure through reciprocity within 6 months of hire
- Experience managing a group of engineers and geologists
- Significant sales and marketing experience with a proven track record of success and a loyal client portfolio
- Minimum 10 to 15 years technical experience as a Geotechnical Engineer, including but not limited to:
  - Geotechnical engineering for infrastructure projects
  - Geotechnical construction observation projects
  - Dam design
  - Geotechnical field investigations
  - Landfill permitting and design a plus
- Strong project management skills
- Strong proposal writing skills
- Strong oral and written communication skills
- Strong attention to detail with excellent analytical, multitasking, and judgment capabilities
- Capability to work well independently and with a team of engineering professionals working in other office locations
- Coordinate and/or manage a variety of geotechnical-related projects
- Provide high-end technical support on geotechnical projects
- Existing established client relationships
- OSHA 40-hour HAZWOPER and/or MSHA training a plus
- Proficient computer skills including Microsoft Office programs, geotechnical design software (Slide, SlopeW, FLAC, and/or other applicable design software)
- Ability to travel up to about 20% of the time

### Candidate Must:

Be eligible to work in the United States and possess a valid driver's license.

Pass a pre-employment physical and drug screen.

GLA offers a comprehensive benefits package including health insurance, 401(k) retirement plan, and Employee Stock Ownership Plan.

GLA is an Equal Opportunity Employer.

Please submit your resume and cover letter to [employment@geo-logic.com](mailto:employment@geo-logic.com).
