

Supervising Geologist/Hydrogeologist

Geo-Logic Associates, Inc. (GLA), a multi-disciplinary civil and environmental consulting firm with 250 professionals in 26 offices in the United States and an office in Peru, is currently seeking a full-time **Supervising Geologist/Hydrogeologist** to provide leadership and technical support for solid waste, mining, and environmental remediation projects.

Office Location: Rancho Bernardo, California

The Supervising Geologist/Hydrogeologist will have experience in the following:

- Managing a small office of professionals
- Developing and supervising a variety of hydrogeological, environmental, and/or geotechnical projects
- Developing business for the local office
- Interfacing with regulatory agencies and clients
- Managing the technical, regulatory, and budgetary aspects of projects
- Working with company management to grow local business
- Participating in business development and marketing endeavors

Position requirements include:

- Bachelor of Science/Bachelor of Arts degree in geological sciences, earth sciences, geotechnical engineering or similar discipline
- Registration as a Professional Geologist in the State of California
- A minimum of 20 years of experience providing geological or hydrogeological services including the following:
 - Practical applications of hydrogeologic principles
 - Engineering geology
 - Groundwater well design, construction, and monitoring
 - Regulatory compliance
- Strong project management skills, writing proficiency, and oral communication
- Strong attention to detail; ability to work on multiple projects simultaneously
- Ability to work independently and with a team of professionals
- Proficient computer skills including Microsoft Office suite and technical analytical software
- Be eligible to work in the United States
- Must possess a valid driver's license

Preferred skills include:

- Advanced degree in geological science, earth science or geotechnical engineering.
- Work experience in the solid waste industry
- OSHA 40-hour HAZWOPER training and current 8-hour annual HAZWOPER training
- MSHA training

Supervising Geologist/Hydrogeologist

Candidate will be expected to work away from home periodically to supervise field work or attend meetings with company management, clients, or regulatory agencies. Candidate will occasionally visit or work at municipal solid waste disposal sites, hazardous waste sites, or mine sites. Employment is subject to a pre-employment physical examination, including drug screening.

GLA offers a comprehensive benefits package including health insurance and a 401(k) retirement plan.

GLA is an Equal Opportunity Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, sexual orientation, gender identity, disability and protected veterans status or any other characteristic protected by law.

Please submit your resume and cover letter to employment@geo-logic.com. The closing date for resumes to be submitted is March 31, 2021.
